Software Developer and Technical Leader using Agile Methodologies, with Expertise in Frontend Development and Over 3 Years of Work Experience. Tremendously Interested in Coding and Learning New Technologies, Analyzing, and Systems Thinking also Professional in 20+ programming languages and frameworks and tools.

Collaborated with 30+ Coworkers on 50+ Diverse Projects and mentored of 10+ Entry level developers.

Enjoy Working with Team Members to Ensure Workloads are Efficiently Resolved and Personally Handling More Responsibility when Necessary. Ready to Bring my Immense Passion and Ambition for Coding and Collaboration to a Talented Engineering Team for Developing High-Quality Solutions and Programs.

Skills

Programming Languages   C, C++, C#, Java, Python, JavaScript, TypeScript
Framework & Libraries & Learning Tools   React.JS, JQuery, Kotlin, Bootstrap, SASS
Project Management   ClickUp, Trello, Scrum
Certifications (LinkedIn badge)   HTML, CSS, JavaScript, React.JS, Front-end Development, Unity, C
Other   HTML, CSS, Git, Linux, UML, Object-Oriented Programming

Work Experience

Frontend Developer Arkamond, Remote   May 2020 – Present

- Collaborated with design, product, and back-end teams to create **10+ international fully responsive super web-application products** with different panels, about **500+ pages** with UI/UX designs.
- Built **modular-based** components and utilities and 100% reusable code for future usage.
- Used **OAuth protocol** and **Microservice Architecture** for multi-panel projects and implemented the management panels using **React.JS**. Used SCSS, jQuery, and Django template for other panels, which need better **SEO** that makes driving acquisition up by an average of 250% each month.
- Developed **Mobile and Desktop Applications** with the same code as web applications due to **Responsiveness**, Cross-Browser Compatibility, and Accessibility-Compliant websites that improved the number of total members by 40%.
- Created a Solar Hijri (Iranian) Calendar with High-Tech Features similar to **Google Calendar** in tandem with a Great Music Platform like **Spotify** for Kurdish People, which Led to an Increase in Client's Average Time Using the Application by 32%.
- Proficient in **Scrum** Methodology. Participated in Product Release Presentations and Code Reviews with 3 Senior Developers. Had the Leadership, Supervision, and **Mentoring** of a Team with 5 Juniors to Achieve High-Performance.
- **Test** the products before releasing them to the market and get the +95% coverage with the **Jest framework.**
- Delivered Engaging User Experience by **Optimizing** images and code. Created Custom **Webpack.JS**, achieving 24% faster load time than the industry average.
- Technology Stack: HTML5, SCSS, JQuery, Bootstrap4, Material UI, TypeScript, React.JS, React Native, Electron JS, Django Template, Django, Docker, PostgreSQL, MongoDB, NginX, WebSocket, Git, Trello, Figma, Zeplin

Frontend Development lead Viraltech.co, Tehran, Iran   Oct 2020 – Mar 2021

- Developed the **mobile-friendly** project about Cryptocurrencies including the admin panel, User Panel, and a SPA compatible with 100% device sizes.
- Recreated a custom client dashboard that reduced support tickets by 50%.
- Implemented the system with Full Compatibility with a **High-Security** backend for payment and connecting to the client's wallet page, decreasing the security concerns to 0.
- Led and **mentored** 3 members and apply **Material-UI**, **antd**, and **bootstrap4**, to increase the speed of development by about 45%.
- Technology Stack: JSX, SCSS, Bootstrap4, Material UI, Antd, React.JS, ASP .Net Core, C#, MySQL, SQL Server, Azure DevOps, NginX, Git, Figma

Education

Iran University of Science and Technology (IUST) Tehran, Iran   Sep 2018 – Expected Jan 2023

Bachelors' Degree in Computer Engineering

- GPA [up to now via 129 credits]: 3.20 (16 / 20)
- Supervisor: Dr. Reza Entezari
